**READ THE FOLLOWING OF NIONS OF THE PERS.

**Among all the works of this gifted lady, none possess more power and pathor than The Lost Heiress, just issued in a superh manner by T. R. Peterson. The plot is well wrought, and possesses an interest that is preserved to the last page of the book. Whether the sunharces steemps wit, sendiment, description, or conversation, she is equally successful. Always writing for a purpose the very carrestness of her style is likely to impress the reader; but when joined to this are the life-like characters she has portrayed, the work possesses two-fold structions. The moral of the darry is excellent, and will siways give it a high rank among hoods of this clear, which unfortunately are too often destinate of any moral whatever. It was first published in chapters in a weekly paper in this city, and was the means of adding thousands to its subscription like. Week after week the stery was looked for with great and increasing interest. Now its publication in book form will give it a circulation second to no love! in he indecent century, it contains a handsome steel portrait of the authories, and a proity view of her home on the Potomac."

[Phila Sanday Mercary, Oct. 8, 1851.

The most valuable work of the kind I have ever read. It is capable of coing more good than any book, other than the Bible. It is more valuable than Benyan's Plygrin's Progress, inasmuch as it is free from doctrinal and polemical matters, and, by its home scenes, and the recollections which it excites, appeals more strongly to our sympathies. Every Sunday school ought to be dringlated with a copy, and every child, and every parent, ought to read and re read it.

This is a tale depending for its interest on lively and truthful pictures of domestic and country life. Its portraiture of character is true and striking to asture, and the whole work is pervaded by a healthy, religious, and moral tone.
